MORE THAN A DISTRIBUTOR

Experience the next generation of inventory management with VENDING MACHINES

VENDING MACHINES are a key part of our innovative solution that helps you manage your challenging business world. Our vending machines allow you to reduce costs in your supply chain, reduce maintenance downtime by improving product availability, and generate reporting by product, employee, or cost center. Vending machines provide numerous standardization and consolidation opportunities all while maintaining high tansparency and traceability.

Let Würth's vending machine solutions do the work for you!
Advantages of Vending Solutions:

Product availability 24/7	Decreased costs in inventory requirements	Free resources can be used for value added activities
Reduction of maintenance downtime by improving availability	Usage restrictions per employee by product or machine	Standardization and consolidation opportunities
Reduction of costs in the supply chain	Detailed reporting by product, employee or cost center	Reduction of product usage by up to 35%
No stock-outs and out-of-stock costs	High transparency and traceability	...
